

DISABILITY SPORT WORCESTER

Charity No. 1024153

Strategic Plan 2014 - 2018

Who are Disability Sport Worcester?

We are an independent charitable organisation that aims to improve and increase disability sport and recreational provision throughout the City of Worcester.

English Federation of Disability Sport Vision:

Disabled people are active for life.

Disability Sport Worcester Vision:

To inspire participation and realise potential through strengthening partnerships.

Mission:

Partners: To widen and promote disability sport and recreation opportunities through local partners.

Potential: To support the development Worcester's disability sport and recreation providers.

Participant: To help participants to achieve their potential.

What we do

- **Listen to our members,** participants, parents and carers to develop programmes to fulfil local need and cover 'gaps' in opportunities.
- **Support and advise** a wide range of our members to enable them to fulfil their needs.
- **Provide funding and fundraising** support by securing large amounts of money in to the city each year. We support individuals, organisations and members to secure their own funding and support them in writing partnership funding applications.
- Offer a wide variety of roles for **volunteers and placements** through ourselves and our members to develop capacity, experience and opportunities.
- **Provide information** about the many inclusive sport and recreation opportunities available in the city through general promotion.
- **Advocate and champion** disability sport and recreation across Worcester City. Representing our members with strategic links to the English Federation of Disability Sport, the Sports Partnership Herefordshire and Worcestershire and National Governing bodies of sport.
- **Increase and improve disability sport and recreational opportunities** that are of a high quality, varied, sustainable, linked to local clubs and sporting pathways.
